PLATFORM OF PRINCIPLES

Adopted by the Republican Ter-  
ritorial Convention Held  
in Tucson September  
26th, 1853.

The Republican party of the Territory of Arizona, in convention assembled, reaffirms its devotion to those grand principles of government which have elevated our nation to its present exalted position.

We renew our loyalty to that party which preserved us as a nation, established equally before the law, built up all the great industries which have added wealth to our exchequer and honor to the American name, and maintained the national supremacy on land and sea.

We point with pride to the record of the Republican party, a party which seized the government when the nation was in the throes of political dissolution, which restored the national authority and resulted with herculean energy the national credit.

We point with pride to the record of the Republican party upon its accession to power received the government of the nation in a distracted condition, torn by dissensions and a prey to conspiracies and factions, that at the end of 25 years it turned over the government to its Democratic successors with the "old flag still there," not a star dimmed nor a stripe erased, with the Union restored and financial credit unimpaired, an overflowing treasury and the public credit higher than that of any nation on earth, with confidence in our ability fully restored the national esteem unshaken and the American name the synonym of patriotic virtue.

We condemn the administration of Grover Cleveland as being false to its pledges, and hypocritical in its dealing. It has failed to keep its sacred pledge of civil service reform, and upon which the President acted his election; it has been false to its friends, its enemies, and false to itself; it has disgraced the national name by the conduct of its appointees in the diplomatic service, and has disturbed the friendly relations heretofore existing between the United States and several foreign governments, notably with Mexico, our sister republic. It has appointed men to office for political subserviency and removed worthy officials whose records have stood high in the service of the government they so faithfully served. It has insulted the patriotic feelings of the people by its action on the pension laws and by its systematic efforts to belittle the patriotic services of our soldiers and sailors; it has shown an utter disregard for the wants of the people aid by its vacillating and cowardly policy has failed to practice those laws which the universal voice of the people demands.

That while the Democratic platform of 1854, handed the soldiers and sailors of the late war, and while said Democratic party professed to appreciate those patriotic services, the Democratic President elected upon said platform, true to Democratic clipity, has persistently labored to nullify in practice the patriotic theories advanced in said platform.

We also set our earnest protest against the removal of Civil rights and representative government from office simply to make room for partisan cronies and cronies.

We believe in a judicious tariff law that will alike protect labor and the manufacturer, protection to the American voter; protection to American commerce and ship building, and last, but least, protection to American citizens at home or abroad, on the high seas or in foreign lands.
